

# METAL INDICATIVE SEAL

**HYBRID SEAL WITH PLASTIC MARKING FLAP AND METAL STRAP. OFFERS GREATER SECURITY THAN A PLASTIC INDICATIVE SEAL.**

The Fixed Metal Seal features a plastic marking flap, stainless steel locking clip and metal strap. The plastic marking flap allows for clear laser marking of barcodes, serial numbers and customer information.

The Fixed Metal Seal does not require any tools to lock. Removal only with Shears or Cable Cutters.

## Features:

- Hybrid construction for improved laser marking and greater security.
- Does not require any tools to apply.
- Metal strap features rolled edges for safer handling.
- Higher tensile strength compared to normal plastic security seals.
- One-way locking with audible 'click' to confirm locking is successful.
- Ultrasonic Welding technology used to secure locking chamber and cap

## ADDITIONAL FEATURES

Plastic Marking Flap

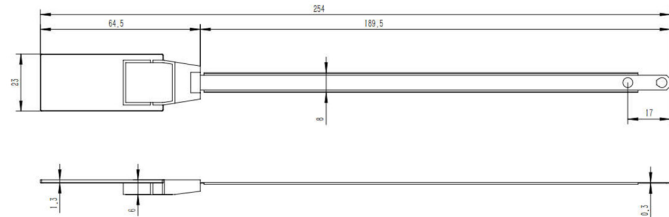

Rolled Edges

One Way Entry
